

COMPANY INTRODUCTION

ABOUT HATRACO

Hatraco is worldwide supplier, manufacturer and distributor of customized industrial engine equipment.

Founded in 1984 by Co Hasselaar, Hatraco has since grown from an one-man trading company to a company of 38 employees with a global network of offices, dealers and agents.

Hatraco provides solutions for stationary gas and diesel engines (*including gas turbines*) for the industry, marine, oil & gas and power generation in all sorts of applications.

With our: In-house engineering
In-house production
In-house service

we guarantee any project to be in the best hands, as we provide the best solutions. Furthermore, with an extensive network of international offices, dealers and agents world-wide, we can ensure fast service in your own language and availability of our high quality products.

Philosophy & Values

Our mission

To improve (industrial) engine performance and contribute to machine reliability.

The manner in which we strive to fulfill our mission is by upholding our core values:

- **Be a partner to our customers**
Taking an individual approach towards customers in order to better understand their needs, provide the best solutions and build lasting relationships.
- **Be reliable**
Say what I do and do as I say. This is about honoring commitments on all levels, having transparent communication and always being clear and realistic with all parties involved.
- **Be knowledgeable & skillful**
By continuously nourishing knowledge and skills within the company we are able to keep delivering well-founded solutions.

In summary, Hatraco strives **to be and remain, a reliable and capable partner regarding solutions for (industrial) engines.**

Commitment

A testament to our commitment to keep improving is being ISO-9001:2015 certified.

3. ABOUT HATRACO

4. MARKETS

6. PRODUCT RANGE

8. IGNITION SYSTEMS

10. SPARK PLUG CABLES

11. STARTING SYSTEMS

ISO 9001

BUREAU VERITAS
Certification

MARKETS

OIL & GAS

A field of opportunities

Solutions for:

- Reciprocating and rotary driven compressors
- Gas and Diesel driven gensets
- (Bio) gas engine driven CHP
- Diesel engine driven pumps

MARINE & OFFSHORE

A sea of opportunities

Solutions for:

- FPSO's
- Oiltankers
- Offshore platforms
- Roll-on / roll- off ships
- Containerships
- Dredgers
- Explorers
- Tugboats
- Workboats
- Life boats

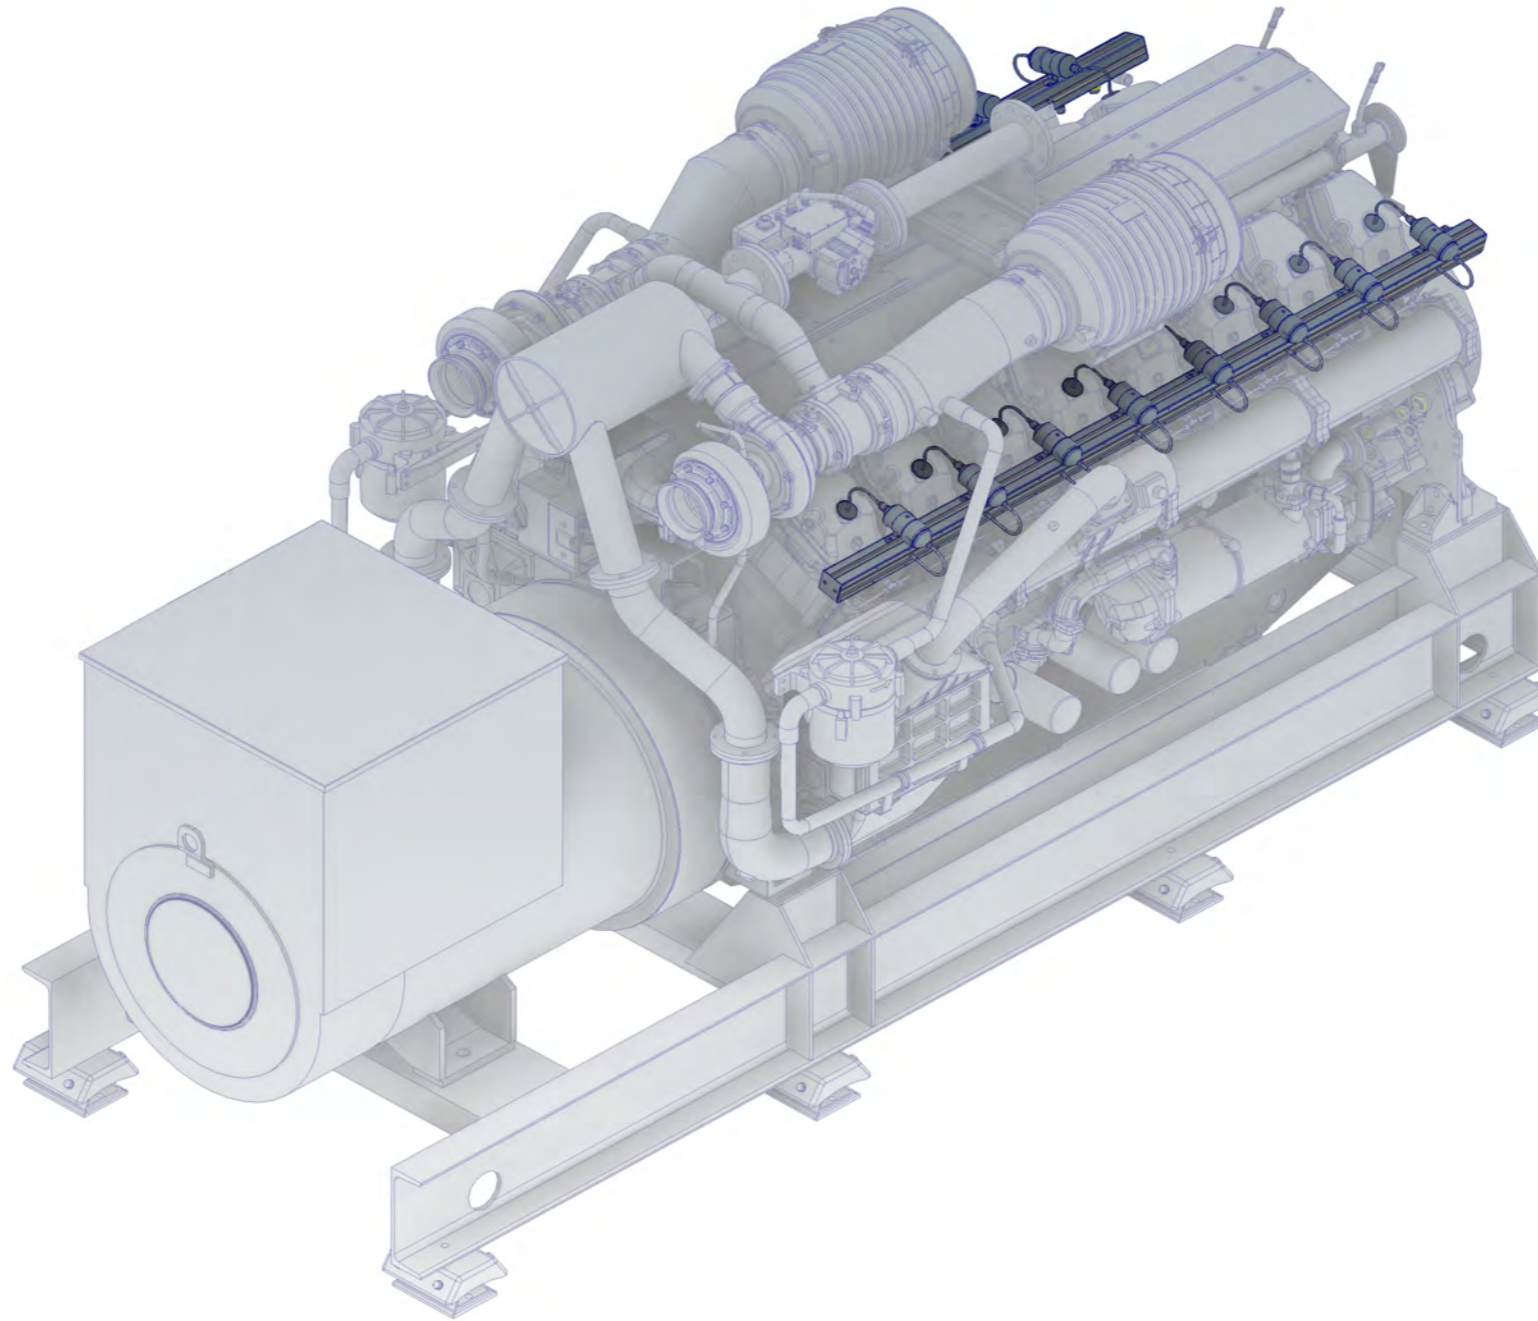

INDUSTRY

A world of opportunities

Solutions for:

- Dump trucks
- Mining trucks
- Excavators
- Transport- agricultural vehicles
- Airport pushbacks
- Lawn movers
- Industrial furnaces
- Heaters
- Industrial ovens
- Ovens in general
- Grain dryers and many more

PRODUCT RANGE

IGNITION SYSTEMS

Up to 20 cylinders
Individual cylinder energy

PRE-WIRED COIL RAILS

Hatraco product
Tailor made to customers specs

SPARK PLUG CABLES

Hatraco product
In-house design & manufacturing

SPARK PLUGS & IGNITERS

Largest program of industrial
spark plugs in europe

Original OEM versions for aftermarket

HARNESSES & RETROFITS

In-house engineering
In-house manufacturing

DETONATION DETECTION

Detection for up to 16 cylinders
Fully programmable

FUEL MANAGEMENT

Various engineering
Bi-fuel systems

CONTROLS

Speed control
Temperature control

STARTING SYSTEMS

Air starting
Hydraulic starting
Spring starting

EMISSION

Diesel particulate filters
Catalytic converters
SCR-filters

FLUID CONTROL

Oil level control
Flow control

BUS & TRUCKS

Custom spark plug cables
Wiring harnesses
Charge cables

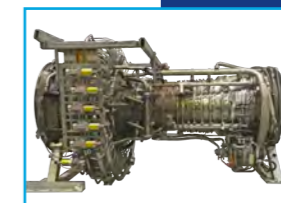

GAS COMPRESSION

Starting systems
Compression control
Ignition systems

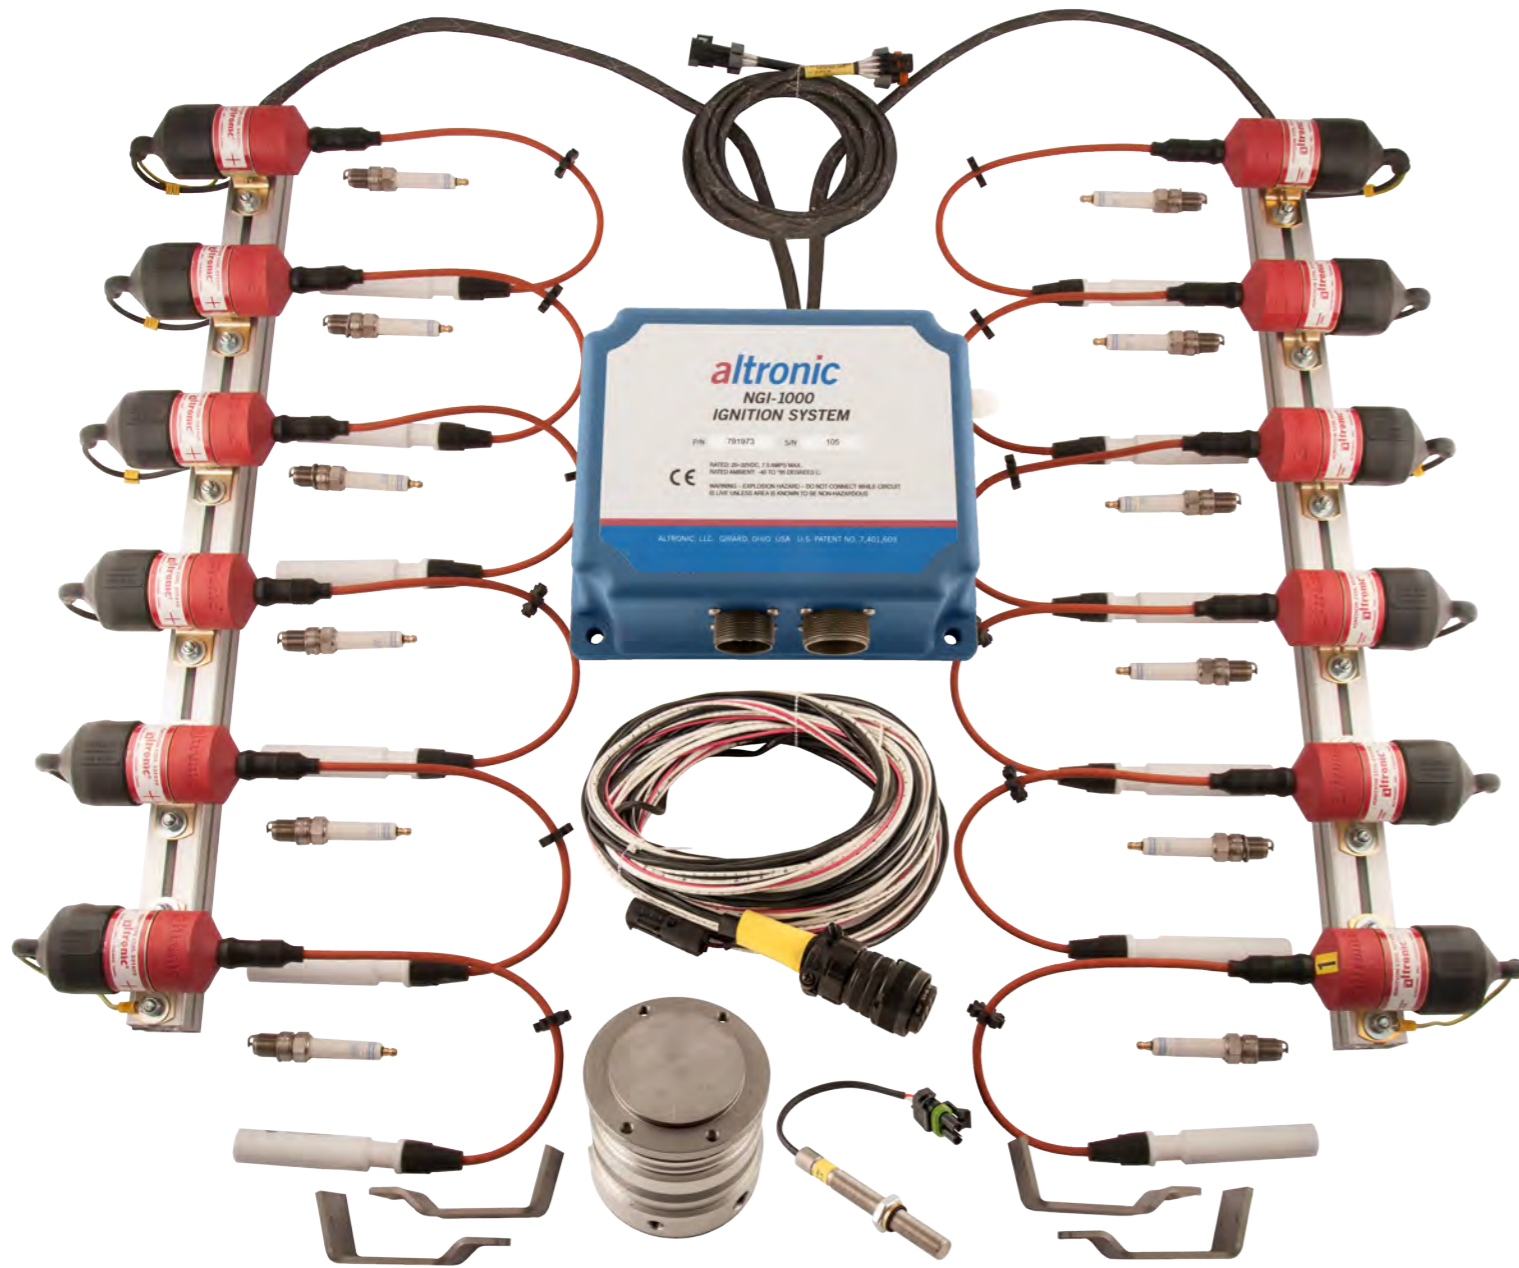

GAS TURBINE

Turbine starters
Sprag clutch
Ignition cables

Hatraco ignition systems

- Custom made
- Available for nearly any engine brand, model and configuration
- Also in small quantities
- Every component can be ordered separately

Application examples

BIOGAS CHP

GAS COMPRESSION ENGINES

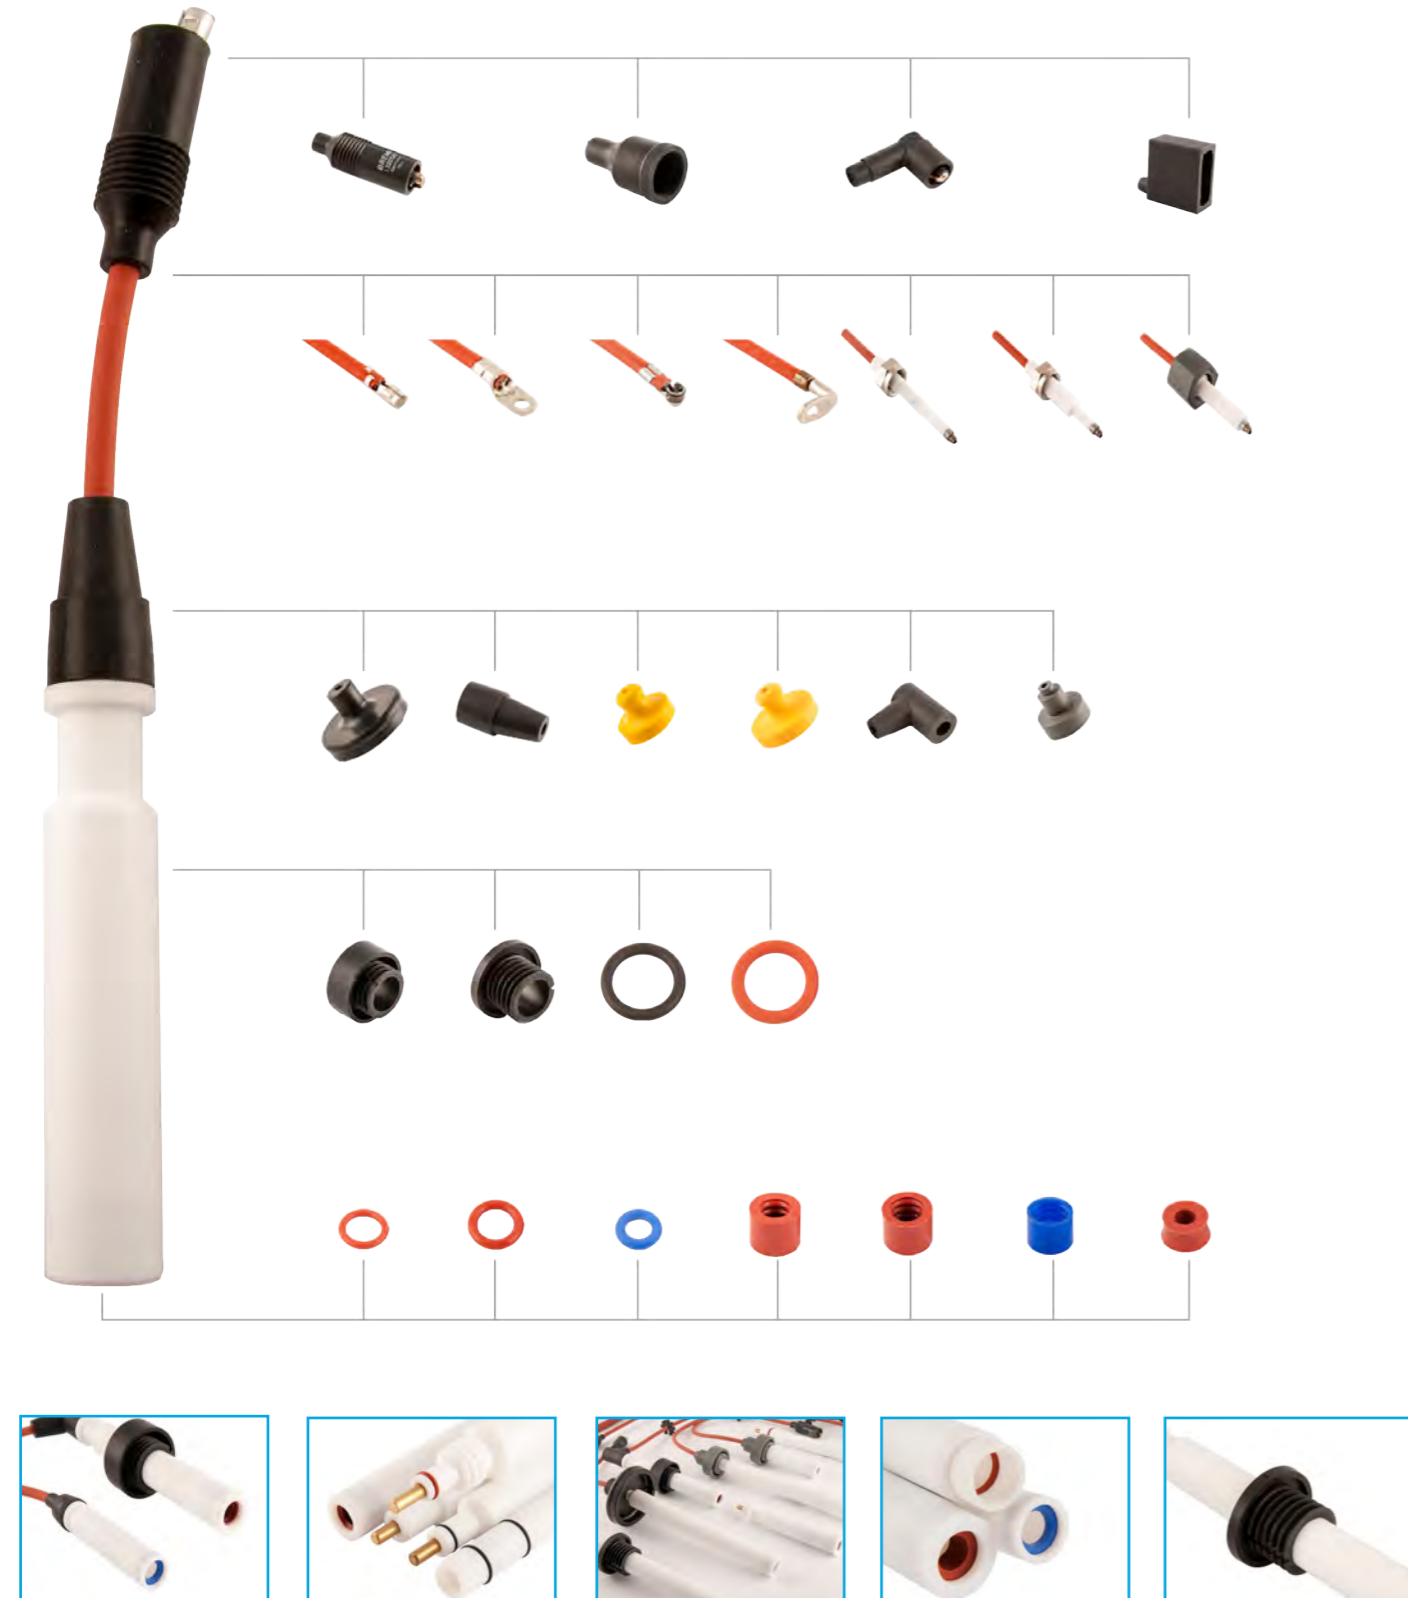

NATURAL GAS CHP

These are just a few examples out of 40+ years of experience providing solutions for industrial engines.

Hatraco spark plug cables

Hatraco ignition systems are manufactured for nearly any engine brand and model, for in-line and V engines. There are standard ranges for various engines available. Besides the standard ranges Hatraco's ignition system can be custom made according to specific wishes and applications, also for small quantities.

Starting systems

A variety of engine starters

Spring starters

Hatraco is the proud force behind the well-established, experienced and original spring starters brand, Kineteco.

Air starters

The most reliable air starters on the market, from TDI Tech Development.

Hydraulic starters

Built for higher speed and torque, from Kocsis Hydraulics.

Hydraulic & Air starting systems

Hatraco offers fully custom starting systems for engines up to 100 litres, with start durations up to 90 seconds, for marine, offshore, oil and gas, mining and industry markets.

For a customized advice, please contact us through our global network of offices, dealers or agents.
